

The **SCOTT Profile²** is a modern twin filter half mask offering low cost of ownership and ease of use. The face piece is moulded in TPE, which is silicone-free and latex-free. It is also extremely soft and comfortable to wear, even for long periods, and is available in three sizes to suit the widest range of users. **Profile²** is intuitive to fit. The harness incorporates an adjustable head cradle and neck buckle, and the large diameter valves provide exceptionally low breathing resistance to reduce wearer fatigue. Extremely cost efficient with minimal maintenance, **Profile²** combines a modern design with low through-life costs. **Profile²** accepts the **Pro** range of cartridge filters, which have individual covers to maximise working life by protecting the filter media from splashes, sparks and contaminants.

Mask including Filters

Ref:	Description	Size	Pack Qty	Packs/Case
READY-PAK (6032175)	READY-PAK Mask complete with ABEK1P3 filters	M	1	20
AGRI-PAK (5032191)	AGRI-PAK complete with A2P3 filters	M	1	20

Mask Body ONLY (for filters please see table below)

Ref:	Description	Size	Pack Qty	Packs/Case
Profile 2 (6032071)	Mask Body ONLY, Medium	M	1	20
Profile 2 (6032070)	Mask Body ONLY, Large	L	1	20

PLEASE NOTE
Respirators are supplied without filters unless stated otherwise.

The **SCOTT Promask²** is a twin filter full face mask providing exceptional balance and presenting an extremely low profile for close-up or restricted access working. **Promask²** has an ultra-comfortable T-bar face seal, which produces an efficient seal with minimal pressure against the face. The airflow management system utilises the inner mask to prevent the visor from misting and to ensure CO₂ is flushed rapidly and efficiently, reducing wearer fatigue even for long periods of use. **Promask²** incorporates a wide panoramic visor to maximise the field of vision and a front mounted speech diaphragm for easy communication with colleagues. The clear inner mask increases wearer acceptability and presents a user friendly appearance to others. Moulded in grey silicone, **Promask²** accepts the **Pro²** range of cartridge filters, which have individual covers to maximise working life by protecting the filter media from splashes, sparks and contaminants.
