GRIPPAZ® TRACTION OUTSOLE

Step confidently with GRIPPAZ® Traction Outsole Technology*. Formulated from a specially slip-resistant rubber Compound. It delivers excellent traction every step of the way.

*All shoes with GRIPPAZ® Traction significantly exceed the european EN 20347:2022 SR Standard

COMFIT ® RELAX MEMORY FOAM FOOTBED

The thermal foam of the COMFIT® RELAX footbed adapts individually to your foot shape through body heat and thus achieves an optimal pressure distribution over the entire tread surface.
The foot is relieved and gets more support. After taking it off, the footbed returns to its original shape (memory effect). The textile cover used is robust, absorbent, washable at up to 30°C (hand wash) and quick drying. Perfect for the long working days!

BREATHACTIVE FUNCTIONAL LINING

The micro-channel system of this multi-layered lining provides a better breathability and moisture management during sweat-inducing work
