HYP295

Thermal, Eco-friendly, Goatskin Leather Palm Glove

The HYP295 gloves are designed to keep your hands warm and dry in cold, wet conditions. They are fully waterproof and cold resistant, thanks to a combination of the Hipora lining that creates an internal barrier to prevent water from passing through, and the Thinsulate thermal lining that provides insulation and retains heat. Made with Goatskin Leather, the HYP295 offers enhanced grip in wet and slippery conditions, as well as durability over prolonged periods of use. These features make the HYP295 gloves the ideal glove for working outdoors in cold weather.

With sustainability in mind, the HYP295 was made using recycled PET yarn taken from plastic bottles to significantly reduce the manufacturing carbon footprint and the reduction of virgin materials within the supply chain. One pair equates to one 500ml plastic bottle reclaimed and recycled, creating an environmentally friendly glove.

CERTIFICATION LEGENDS

EN388:2016

EN388:2016
Blade Cut TDM
EN ISO 13997 *

NEWTON LEVEL

≥ 30	F
≥ 22	E
≥ 15	D
≥ 10	C
≥ 5	B
> 2	A

* For dulling during cut resistance test (6.2), the coupe test results are only indicative while the TDM cut resistance test (6.3) is the reference performance result.

EN407:2020

EN511:2006

* For details regarding maximum permissible user exposure, see separate sheet.

¹ Testing carried out on the palm material. Except in cases where the glove is equal to or over 400mm - where the cuff is tested also tested. ² 'X' denotes Not Tested. ³ Where applicable, EN388:2016 scores take precedent and are ongoing. There is no correlation between coupe test levels and ISO 13997 / TDM cut test levels. Where both EN388:2016 and EN388:2003 scores are shown, the latter is shown for informational purposes only.

FURTHER INFORMATION

STORAGE / TRANSPORT: Keep away from direct sunlight; store in a cool dry place. Keep away from ozone sources or naked flame. Store the gloves in their original packaging. During transportation, ensure the product is well packaged and protected in order to prevent any damage.

PRECAUTIONS BEFORE USE: 1. Never use these gloves with chemicals. 2. Gloves should not be used when there is a risk of entanglement with moving machine parts. 3. Before usage and periodically during usage, inspect the gloves for any defects or imperfections. Avoid wearing damaged, dirty or worn out gloves. 4. The gloves should not come in contact with a naked flame or fire. 5. Do not subject to high speed or serrated blades. 6. Always read enclosed user instructions before using these gloves. 7. Whilst these gloves are highly cut resistant, they are not cut proof. 8. The information provided is for products in a new condition and does not reflect the actual duration of protection in the workplace. 9. Service life cannot be specified and depends on the application and the responsibility of the user to ascertain suitability of the glove for its intended use.

CONSTITUENTS / ALLERGIES: Some gloves may contain ingredients which are known to be a possible cause of allergies in sensitive persons who may develop irritant and/or allergic contact reactions. If an allergic reaction should occur seek medical advice immediately. This model does not contain any substances at levels that are known to, or suspected to, adversely affect user hygiene or health.
