

**TBRT37**

**HI-VIS BREATHABLE OVERTROUSER 4:4**

**CLASS 2 BREATHABLE OVERTROUSER**

The TBRT37 (Traega Breathable Rain Trousers) is built and designed with quality and longevity in mind. Constructed using a highly breathable yet fully waterproof oxford polyester shell, they achieve EN343:2019 level 4:4 - maximum breathability, maximum waterproofing and the ability to wear all day without overheating. A stain resistant finish provides the garment with added longevity. Side access pockets allows you to get to your secure inner trouser pockets. Zip access to the bottom of each leg allows for easy donning and doffing without the need of removing your footwear. EN20471 class 2 allows this product to be worn in a multitude of environments such as for work on highways, construction sites etc. It can be combined with the TBRJ31 breathable jacket to create a fully breathable, EN20471 Class 3 outfit for all day use in wet environments. **Orange colours certified to RIS-3279-TOM: Issue 1 for use on railways.**

**STORAGE:**

Do not store in places subject to direct or strong sunlight. Store in clean, dry conditions and preferably in original packaging.

**WASH CARE:**

**MAINTENANCE:**

The garment should be worn fastened at all times to provide the correct level of protection stated. Keep clean: should the high visibility properties of this garment become irrecoverably soiled or contaminated, replace immediately. The garment is suitable for wear during an entire working day and contains no toxic substances that are known to adversely affect user health. Do not attempt to repair damaged garments. Regular comparison against a new garment is recommended. Retro-reflective tape should not be ironed. Garment lifetime depends on: usage, care storage, number of washes etc. Garments should be discarded when the protective qualities no longer apply. See enclosed user instruction sheet for more information.
