**STORAGE:**

Do not store in places subject to direct or strong sunlight. Store in clean, dry conditions and preferably in original packaging.

**WASH CARE:**

**CERTIFICATION LEGENDS:**

EN ISO 20471:2013  
Class according to visible materials minimum area (Max 3)

Meets: GO/RT 3279 Issue 8, RIS-3279-TOM: Issue 1  
Railway Group Standard RIS-3279-TOM defines the minimum requirements for high-visibility clothing for being conspicuous on the line-side or on or near the line.

**MAINTENANCE:**

The garment should be worn fastened at all times to provide the correct level of protection stated. Keep clean: should the high visibility properties of this garment become irrecoverably soiled or contaminated, replace immediately. The garment is suitable for wear during an entire working day and contains no toxic substances that are known to adversely affect user health. Do not attempt to repair damaged garments. Regular comparison against a new garment is recommended. Retro-reflective tape should not be ironed. Garment lifetime depends on: usage, care storage, number of washes etc. Garments should be discarded when the protective qualities no longer apply. See enclosed user instruction sheet for more information.
